FEATURES & BENEFITS

► User safety and comfort

- New damping technology for even more comfort and silence
- Safer and more comfortable loading and unloading with the increased safety bar opening angle, optimal backrest inclination and a redesigned safety bar geometry
- No seat dividers for unrivalled seat width
- Most generous backrest height on the market
- Use of deformable foam membranes for greater safety and comfort when closing the hood
- Less effort when opening and closing the hood

► Maintenance

- Easy access to mechanical components and simplified chair maintenance thanks to quickly removable hatches
- Chair alignment facilitates cleaning and prevents the accumulation of snow between the backrests
- Better rope stability when windy:
- Near-instant detection of roller blockages

► Design

- New design of side panels, more contours for extra elbow room and foam for greater comfort and safety
- Curve of the hood modified to offer optimal space
- Rear cover with a continuous surface, making it easy to affix advertising stickers and other communication material

OPTION

- 4, 6 and 8-seater versions
- OCR (low backrest), OCC (high backrest, convertible to CC), CC (hood) versions
- Hood available in three colours (grey, yellow, blue)
- 2 types of chair ("classic" and "comfort")
- 2 types of footrests (individual and duo)
- Lockable safety bar
- Padding of safety bar structures
- Embroidered logo or inscriptions
